## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Furuta 4,953,321.

Furuta discloses a fishing hook having an outer surface essentially of titanium or an alloy of titanium (single film layer or multiple film layers of titanium carbide, titanium nitride, Ti(C,N)) and an inner layer of stainless steel (base member 11)

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Furuta 4,928,423.

Furuta discloses a fishing hook having an outer surface essentially of titanium or an alloy of titanium (single film layer or multiple film layers of titanium carbide, titanium nitride, Ti(C,N)) and an inner layer of stainless steel (base member 11).

4. Claim 2 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japanese Pat. No. 2001-314137 to Takamura.

Art Unit: 3643

Takamura discloses a fishing hook (see Figs. 1, 2) made of a composition consisting essentially of titanium alloy (fine wire of a titanium alloy).

5. Claim 2 is rejected under 35 U.S.C. 102(e) as being clearly anticipated by Hoben 6,691,449.

Hoben discloses a fishing hook (10) made of a composition consisting essentially of titanium (titanium wire).

6. Claim 2 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fujii et al. 5,526,603.

Fujii et al. discloses a fishing hook (A1) made of a composition consisting essentially of titanium (titanium).

### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

The Examiner would like to indicate to applicant that claim 2 should not have been withdrawn, it appears that applicant might have intended for the claim to be canceled. This claim has been treated as it was presented when the Non-Final Office Action mailed 9/21/2004 was written.

Art Unit: 3643

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
